

MATHEMATICS IS EVERYWHERE

"Maths club activities give new life to maths beyond the classroom".

Maths club 2022-23 of Carmel Convent School conducted different programmes on 12th and 13th of December

Rev. mother, Anila unveiled the logo "Math is everywhere". Different concepts in maths were shown through dance, skit, speech and activities. There was quiz competition for the students of all classes. All students showed enthusiasm and participated actively in the quiz competition. Rev. Sister Catherine, the Principal gave away the prizes for the winners.

Maths club activities helped students to develop interest and to understand the concepts in maths in a better way. There was good team spirit and cooperation from all participants.

"Pure mathematics is the poetry of logical ideas"

Albert Einstein

EXAMINATION AND EVALUATION

WORK IN SILENCE - ASSESSMENT III

“Today’s studying plants the seeds for tomorrow’s exam success.”

To evaluate and assess the learnings of the students, Assessment III was conducted for classes 1 to 8 from 1st of December, 2022. In the subsequent week, Assessment III & IV combined Examination was held for classes IX & X which they wrote for 40 marks.

HEADS TOGETHER - PARENT TEACHER MEETING

“Great opportunity to open two ways communication for the welfare of the child.”

Open day was conducted for classes 1 to 8 on 17th December, 2022 to detail and discuss the child’s academic performances and behaviour patterns as well. Parents were given feedback on their ward’s performances in Assessment III 2022.

It was a great interaction between the teacher and the parents for the development of their children where they discussed both the strengths and areas of improvements. The Answer scripts and marks of each subject were shown to the parents and their suggestions were noted. Any sign of a child failing to make progress, regardless of where they are in the lower, middle or higher range is questioned and addressed.

The PTM came to an end with the conclusion that joint effort, mutual understanding and cooperation of parents and teachers is very important for the proper nourishment and progress of students.

A CHRISTMAS TO REMEMBER

"Christmas is the day that holds all time together."

- Alexander Smith

Christmas is the festival which inspires the spirit of sharing and caring. Christmas celebration was held on 23rd December 2022, in the school quadrangle. The school was beautifully decorated and wore a festive look with lights, stars, innovative crib, posters, reindeer, snowman and a beautifully decorated Christmas tree. The celebration began welcoming the Chief guest Rev. Father Juan Louis Stanislaus and the dignitaries of the day. The programme started with a small enactment by Carmel Buds and Carmel Warriors about God's creation titled 'The Hope Foretold' - the coming of Jesus Christ to give Joy, Hope, Love and Peace followed by Welcome dance and Welcome Speech. Various programmes such as energetic dances for the exhilarating christmas songs, resonating carol songs by the school choir, talks on Symbols of Christmas by primary students and a stunning skit depicting the scenes of the nativity of Jesus Christ right from the conception of Mary to the birth of Jesus -a harmonious story were performed by the students of Yellow House. The Chief Guest addressed the gathering with a thought provoking message that the birth of Christ is a GIFT where people are taught to Give the needy, Live with Integrity, Forgiving heart and Trust in God. Students enthusiastically absorbed the message and responded actively to the questions asked by father. The essence of Christmas came alive with the entry of Santa Clauses adding joy and excitement in the air. The boundless joy of celebrating this festival was quite evident on the faces of each child. The event ended with cheerful Christmas greetings as the students danced to the melodious tunes of 'Jingle Bells' and ' We wish you a merry Christmas' followed by class photos with astonishing backdrop curtains. The celebration came to an end with a sweet bite of delicious plum cake distributed to the children.

Day Out

Carmel Convent, Bangalore organised the most awaited memorable class picnic for tenth graders. We left at 8:00 am and reached at 10:00 am to our picnic spot. The students were exceedingly joyful and sang songs till they reached the venue .Every child was brimming with joy and enjoyed many wild rides. The children relished delicious lunch followed by super snacks in the evening . All the students expressed a desire to revisit the place again. Indeed it was a great moment for all the students and teachers, as it strengthened the bond between the students and their teachers. The day concluded by saying the prayer , thanking the lord for a safe and wonderful day.

Let's Go With adventure

Tour of the Universe

On 14th December, our school held a planetarium show for students for grades 1 to 10 and pre-primary. The show, which was held in the school's premises, featured a virtual tour of the solar system and an exploration of the night sky. The students were taken on a virtual tour of the solar system, starting with the sun and traveling to each of the planets in turn.

As the tour progressed, the students learned about the characteristics of each planet, including their size, mass, and distance from the sun. They also learned about the moons and other celestial bodies that orbit each planet.

After the tour of the solar system was complete, the students had an opportunity to explore the night sky and learn about the constellations and other celestial objects that can be seen from Earth.

The highlight of the show was when we got to see a simulated fly-through of the Milky Way galaxy, which gave us a sense of the vastness and complexity of our universe. The show ended with a tour of the Jurassic World.

Overall, the planetarium show was a great success and the students were thoroughly engaged and fascinated by the information they learned. The show provided a valuable opportunity for the students to learn about the mysteries of the universe and to develop an appreciation for the beauty and complexity of our solar system.
